## **Jeppesen 1710 Modified Data Report**

*Effective Date 14 September 2017*

Jeppesen plays the role of a value added data consolidator when combining source documentation from over 200 countries worldwide. Occasionally inconsistencies or errors are detected within the source documents provided by the state(s). Jeppesen corrects these errors or inconsistencies whenever possible by modifying the state provided data.

Jeppesen is required by regulatory agencies to report Jeppesen Modified Data to our end users. The listing of Jeppesen Modified Data is provided below. All data modified by Jeppesen should be considered fit for aeronautical use.
