

JEPPESEN.

Marine Product Change Notice

Jeppesen Marine Product Change Notices inform users of corrected errors in Jeppesen Marine products. These notices are also regularly updated at www.jeppesen.com/marinealerts/

Date: December 02, 2010
Subject: Incorrect vertical and horizontal clearances of the central section of Manns harbor bridge to Roanoke Island, Croatan Sound, NC, USA on Jeppesen chart 12205E
Affected Products: C-MAP NT, NT+, MAX, MAXPRO and MapMedia (*see Table 1 at the end of this document for a detailed list of affected cartridge codes and databases*)

Jeppesen hereby notifies customers that its chart 12205E covering Croatan Sound, NC, USA, has incorrect vertical and horizontal clearances for the central section of Manns harbor bridge to Roanoke Island in the Jeppesen Marine products described above.

The correct vertical clearance of the bridge section located at Lat. 35°55'.15N, Lon. 44°44'.84W is 45 feet and not 65 feet as incorrectly stated in the affected products.

The correct horizontal clearance for this bridge section is 80 feet and not 90 feet as incorrectly stated in the affected products.

These errors have been fixed. Corrected versions for most of these products were released to our distributors in October 2010. Table 1 on the next page specifies the release dates for all affected products.

Please, contact Jeppesen Marine or our dealers and distributors for instructions on how to update a product affected by this notice.

Additional Information

Jeppesen Marine reminds navigators that nautical chart information is constantly changing.

National Hydrographic Authorities periodically publish new and updated information. As it is received, Jeppesen Marine incorporates the updated information into new and existing products. These changes are available to our customers for purchase.

Therefore, navigators should check their Jeppesen Marine charting products to make sure that they have the most current version available. If your charts are out-of-date, Jeppesen Marine strongly urges you to update them via Jeppesen Marine directly, or through authorized resellers.

Jeppesen electronic charts are an aid to navigation designed to supplement, but not replace, the use of authorized government charts and Notices to Mariners.

Marine Product Change Notices are published to inform users of errors in Jeppesen navigation products. They are distributed to affected Jeppesen users (shipping companies, OEMs, and other data users) and to registered marine customers receiving data products directly from Jeppesen. Notices are not distributed by Jeppesen to individual non-registered mariners, but are available to them on the Jeppesen Web site, www.jeppesen.com/marinealerts/. Different plotters and computer systems use and display Jeppesen data differently. Users should consult with their database update service provider for definitive information on whether their system is affected by this Notice.

Marine Product Change Notice

Table 1. Use the following table to determine if you are in possession of cartridges or databases affected by this notice, as well as to find out the release date of updates to each affected product.

Affected Products:	Affected cartridges and databases	Release date for corrected products
C-MAP NT	NAB46723, NAB46722, NAB46721, NAB46720, NAB46719, NAB46718, NAB46717 NAB42224, NAB42223, NAB42222, NAB42221, NAB42220, NAB42219, NAB42218 NAB41426, NAB41425, NAB41424, NAB41423, NAB41422, NAB41421, NAB41420 NAB40825, NAB40824, NAB40823, NAB40822, NAB40821, NAB40820, NAB40819	October/2010, Released
